

Powering economies, empowering people

A Mastercard company, Vocalink designs, builds and operates industry-leading bank account-based payment systems.

Our technologies power the UK's real-time payments, settlements and direct debit systems, as well as the UK's network of nearly 70,000 ATMs. In 2017, we processed over 90 percent of salaries, more than 70 percent of household bills and almost all state benefits in the UK.

In addition, our proven real-time bank account-based payment solutions provide more payment choice to customers in Singapore, Thailand and the United States.
