

A new way to pay from your accounts

Consumer payments are increasingly digital...

of in-store spend by mobile payment in 2018¹

of online transactions will be made by alternative payment methods, including digital wallets and bank transfers by 2022¹

By 2022...

of people globally will be connected by mobile²

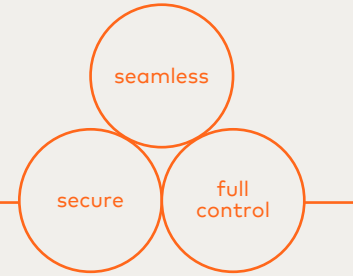

At the same time...

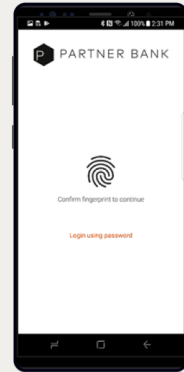

more fraud online than in-store levels³

Consumers want seamless and secure ways to pay, with full control

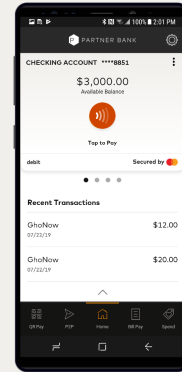

Pay by Account turns your mobile banking or digital wallet into an omni-channel payments app, enabling your customers to pay in-store or online directly from their bank or digital account.

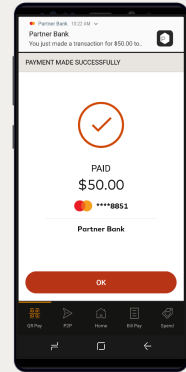

Checkout at Mastercard online, contactless and QR acceptance locations globally

Authenticate identity & log into app

View balances & select account to pay with

Authorize payment & receive immediate confirmation
